

Privacy Policy

Last updated: June 25, 2026

Jacado Games (“Jacado Games”, “we”, “our”, or “us”) respects your privacy and is committed to collecting as little personal data as possible.

This Privacy Policy explains how personal data is handled when you use the Jacado Games website and games available at <https://jacado.games>.

Privacy-first summary: Jacado Games does not collect gameplay profiles, except for the email address, for the purpose of showing top scores in the hall of fame. Jacado Games does not intentionally track users. The only personal data intentionally kept by Jacado Games is the email address associated with a top score submitted to the Hall of Fame.

1. Overview of Jacado Games’ Privacy Model

Jacado Games is designed as a casual games website with a minimal-data model. In general:

- You can play the games without creating an account.
- Jacado Games does not intentionally collect personal data from ordinary gameplay.
- Jacado Games does not sell personal data.
- Jacado Games does not build advertising profiles based on your gameplay.
- Jacado Games intentionally keeps only the email address associated with a top score submitted to the Hall of Fame.

This approach is intentional and is designed to reduce privacy risks while still allowing the Hall of Fame feature to operate.

2. Information We Collect and Store

Jacado Games intentionally stores only the following personal data:

Personal data intentionally stored

Email address submitted with a top score. This is stored to associate a Hall of Fame entry with the person who submitted the score and to reduce duplicate or abusive score submissions. Depending on the current Hall of Fame design, the email address may be displayed publicly or used internally to identify the submitted score.

Score-related information. Jacado Games may also store the score information required to operate the Hall of Fame, such as the game name, score, ranking position, and submission date/time. This information is not by itself treated as private data unless associated with an email address.

Important: Do not submit an email address to the Hall of Fame if you do not want that email address to be associated with a score entry.

3. Information We Do Not Collect

Jacado Games intentionally does not collect or store the following:

- User account details or passwords
- Full names, home addresses, phone numbers, or payment details
- Private messages or chat content
- Personal documents or files
- Gameplay profiles beyond Hall of Fame score entries
- Advertising identifiers
- Precise geolocation data
- Analytics or telemetry data intended to profile users

Jacado Games does not sell personal data and does not share personal data with advertisers.

4. Hall of Fame Submissions

When a player submits a score to the Hall of Fame, Jacado Games may store the email address submitted with that score, together with the score information required to display and operate the Hall of Fame.

The Hall of Fame is a public or semi-public feature. Information connected with a Hall of Fame entry may be visible to other users of Jacado Games, depending on the way the Hall of Fame is displayed.

By submitting a score and email address to the Hall of Fame, you confirm that the submitted email address belongs to you or that you have permission to use it for this purpose.

5. Cookies, Local Storage, and Similar Technologies

Jacado Games may use browser storage that is technically necessary for game operation, such as keeping temporary game state, preferences, or session-related information on your device.

Jacado Games does not intentionally use cookies or browser storage to create advertising profiles, track users across unrelated websites, or collect personal data unrelated to the Hall of Fame feature.

6. Technical Logs and Security

Like most websites, hosting infrastructure may automatically create technical logs, such as IP address, browser type, device information, requested page, and request time. These logs are used only for security, debugging, abuse prevention, and service operation.

Jacado Games does not use technical logs to build user profiles, does not sell log information, and does not intentionally combine technical logs with Hall of Fame email addresses for marketing or advertising purposes.

7. How We Use Personal Data

Jacado Games uses the email address associated with a Hall of Fame score only for purposes connected with the Hall of Fame and operation of the games, including:

- Displaying, validating, maintaining, or moderating Hall of Fame entries
- Preventing duplicate, fraudulent, abusive, or inappropriate score submissions
- Responding to a request to remove or correct a Hall of Fame entry
- Maintaining the security and integrity of Jacado Games

Jacado Games does not use Hall of Fame email addresses for advertising, unrelated newsletters, or unrelated marketing messages.

8. Data Sharing

Jacado Games does not sell personal data. Jacado Games does not share Hall of Fame email addresses with advertisers.

Personal data may be processed by hosting, infrastructure, or technical service providers only as necessary to operate Jacado Games. Such providers are expected to process data only for the technical purposes required to provide their services.

Jacado Games may disclose information if required by law, legal process, security investigation, or to protect the rights, safety, and integrity of Jacado Games and its users.

9. Data Retention

Hall of Fame email addresses and related score entries may be retained for as long as the relevant Hall of Fame entry remains active, unless deletion is requested or retention is no longer necessary for the operation of the Hall of Fame.

If you want a Hall of Fame entry removed or corrected, contact us using the contact details below and include enough information to identify the relevant entry.

10. Your Choices and Rights

Depending on your location, you may have rights regarding your personal data, including the right to request access, correction, deletion, or restriction of processing.

Because Jacado Games intentionally stores very little personal data, most requests will relate only to the email address associated with a Hall of Fame score.

To exercise these rights, contact us using the contact details below.

11. Children's Privacy

Jacado Games is intended for general audiences, including casual players. Jacado Games does not knowingly collect personal data from children except where a player submits an email address with a Hall of Fame score.

Children should not submit an email address to the Hall of Fame without permission from a parent or legal guardian. If we learn that a child submitted personal data without appropriate permission, we will remove the relevant personal data upon request.

12. International Users

Jacado Games may be accessed from different countries. If you use Jacado Games from outside the country in which it is operated, you understand that the minimal personal data described in this Privacy Policy may be processed in another country for the purposes described above.

13. Security

Jacado Games uses a minimal-data approach to reduce privacy and security risks. However, no website or internet transmission can be guaranteed to be completely secure.

Users should avoid submitting email addresses or other information they do not want associated with Hall of Fame entries.

14. Changes to This Privacy Policy

Jacado Games may update this Privacy Policy from time to time. Updates will be published on the Jacado Games website with an updated "Last updated" date.

Continued use of Jacado Games after changes are published means that you accept the updated Privacy Policy.

15. Contact

For questions, requests, or concerns regarding this Privacy Policy or a Hall of Fame entry, please contact:
